

Intrace AG - Production and worldwide distribution of wiper blade refills

Intrace AG, headquartered in Vaduz, Liechtenstein, was founded in **1996** and has since established itself internationally as a producer and distributor of wiper blade refills.

Our Competence

As a manufacturer of wiper blade refills, our customers (represented in over 70 countries) know us as a powerful partner and supplier. On-time delivery is our absolute priority, and the highest product quality distinguishes us.

In our more than 20-year history, we supply hundreds of distributors worldwide every day - and our customers rely 100% on the enormous performance and delivery capabilities of our wiper blade refills.

Our Philosophy

Benefit from our extensive experience in the field of high-quality wiper blade refills. Marketing and customer relations as well as their individual adaptation and implementation are of greatest importance to us. We deliver fast, economically and reliably, quality is assured - competitors cannot keep up. In order to guarantee the highest product quality of wiper blade refills, we are constantly investing in our own development of innovative and particularly high-performance materials.

Our Actions

We strive to advance continuously. Therefore, we always integrate our entire team in the processes.

- Quality assessment of our (pre-)suppliers
- Production with reliable production plants
